

How to Create an Ethereum Wallet on MyEtherWallet

STEP 1: Go to <https://www.myetherwallet.com>. Disregard the “Warning” pop-up when first entering the site and click to the side of it for it to disappear.

STEP 2: You are welcomed to the “New Wallet” page. Enter the password you wish to have for your new Wallet and click the “Create a Wallet” button.

Create New Wallet

Enter a password

Do NOT forget to save this!

Create New Wallet

This password *encrypts* your private key. This does not act as a seed to generate your keys. You will need this password + your private key to unlock your wallet.

Save your Keystore File.

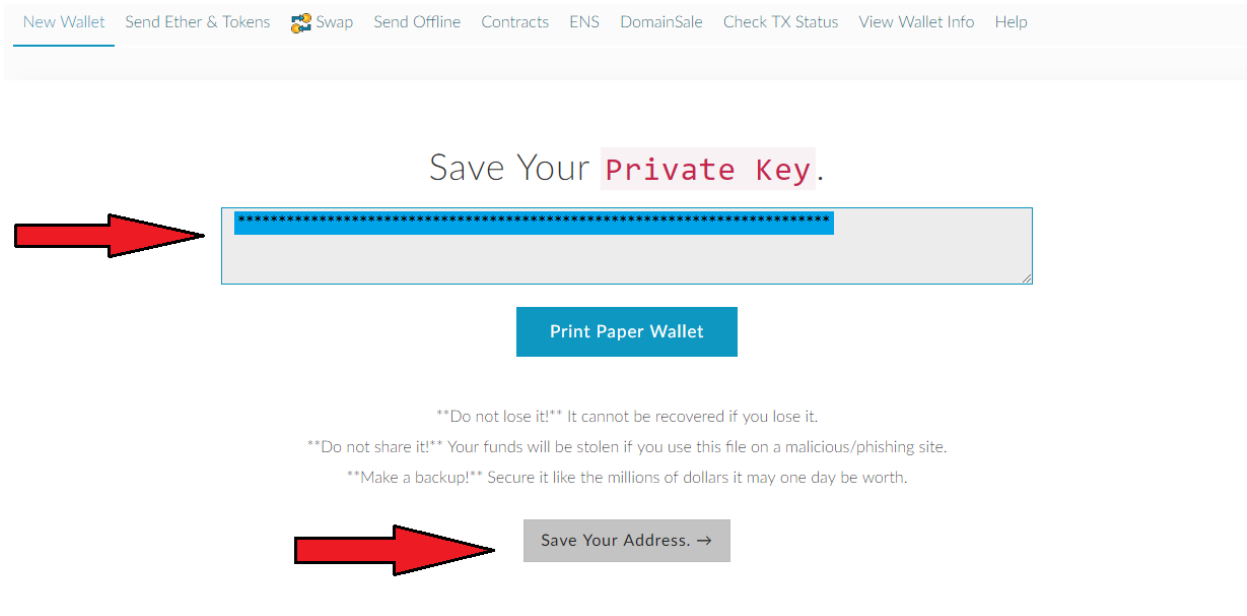

Download Keystore File (UTC / JSON)

****Do not lose it!**** It cannot be recovered if you lose it.
****Do not share it!**** Your funds will be stolen if you use this file on a malicious/phishing site.
****Make a backup!**** Secure it like the millions of dollars it may one day be worth.

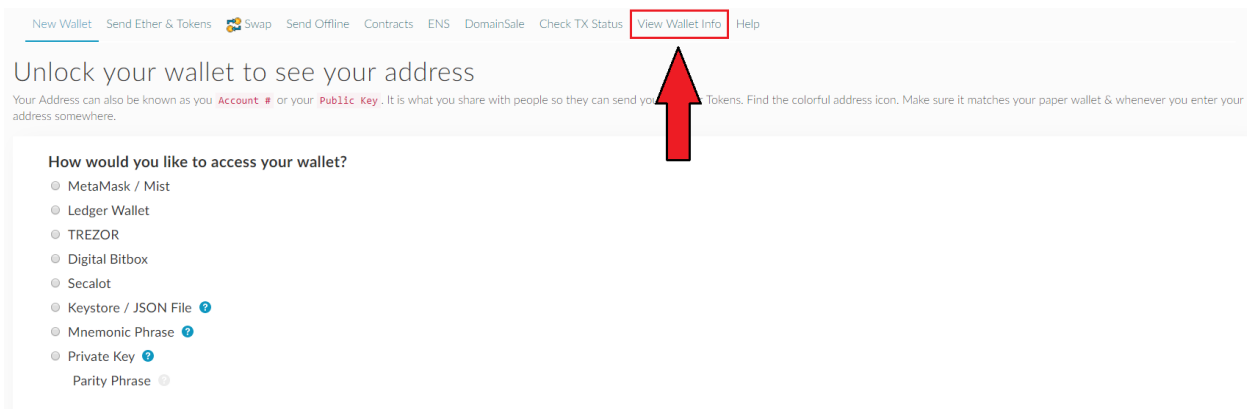

I understand. Continue.

STEP 4: Copy your “Private Key” in a safe location of your choice (computer, device, book, etc) and click on “Save Your Address”.

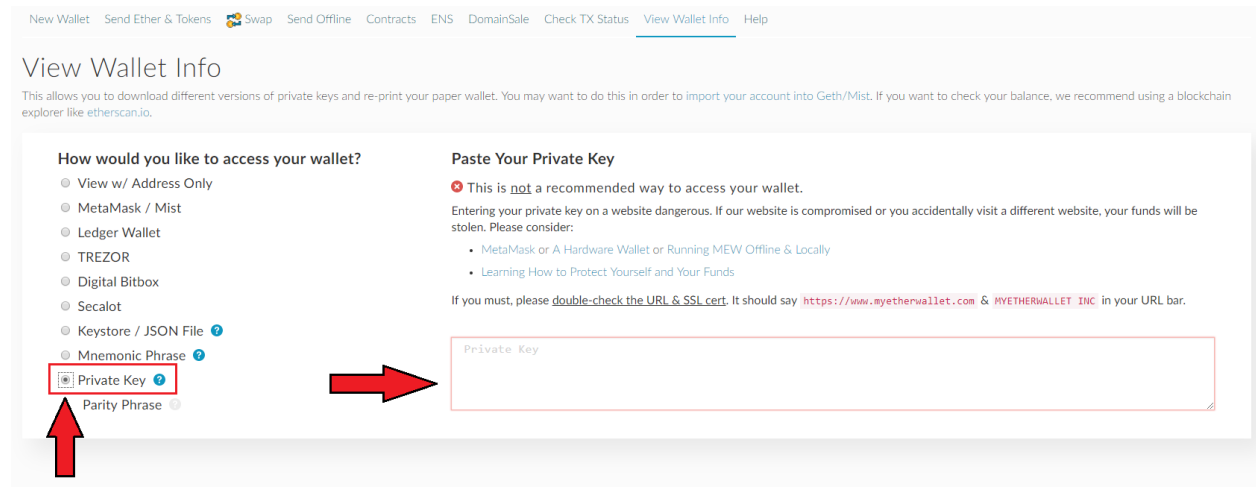

IMPORTANT – Do not lose this Private Key. You need it to access your wallet. Keep it safe.

STEP 5: On the top menu, click on “View Wallet Info”. This is how you access your Wallet.

STEP 6: Choose “Private Key” from options and enter the Private Key you saved and “Unlock” the wallet.

STEP 7: You now see your Wallet Dashboard and have your Wallet Address. This is the Wallet Address you need to provide Carbon Dollar X to receive your CDX Tokens.
